

Window Inserts – Stay Warm. Save Money.

Were your windows drafty during the winter causing you to burn more fuel to stay warm?

[WindowDressers](#) is here to help.

WindowDressers is a nonprofit organization bringing community volunteers of all economic and social situations together to improve the warmth and comfort of their homes. By providing low-cost insulating window inserts that function as custom, interior-mounted storm windows, WindowDressers help eliminate window drafts, lower heating costs and reduce carbon pollution.

Larry and Sherral Lumsden installed window inserts in most of their windows in the fall of 2023. After the second winter with the inserts, they have noticed not only is their home much more comfortable, but they have managed to save \$1,500 on their oil bills this winter compared to 2021-2. [READ](#) more about their story.

To help with the cost of the inserts, Greensboro residents can apply for a \$100 Efficiency Vermont rebate, and a \$50 rebate from Hardwick Electric. We also have a \$1,500 grant from the Greensboro Association to provide financial assistance to low-income homeowners. For vulnerable Vermonters there are additional discounts through the WindowDressers program - no-one is turned away.
