- GENERAL NOTES**
- 1) This is not a boundary survey and under no conditions should it be used as such. Should questions arise regarding exact locations of lot lines, a Vermont licensed surveyor should be consulted. Property lines on these plans based on town parcel maps.
 - 2) Topography based on total station survey by LAES as well as VCGI LIDAR coverage. Elevations depicted on these plans are based on an assumed datum of 1484.3 feet at top of water line valve.
 - 3) Lot is currently permitted under WW-7-1814. The two replacement areas identified on permitted plans are being relinquished. The existing home that is being rebuilt as part of this application was mistakenly permitted as a 3 bedroom home. It has been proven to be a 4 bedroom home since before 1/1/2007.
 - 4) Prior to construction please contact the consultant to schedule a construction stake-out of the proposed wastewater and/or water supply features designed on these plans.
 - 5) Prior to burial of components designed herein please contact the consultant to schedule a construction inspection of the proposed wastewater and/or water supply features designed on these plans.
