Permission to Enter Property & Applicant Certification Signatures

Signing of this application authorizes the Zoning Administrator to enter onto the premises for the purpose of verifying information presented.

The undersigned hereby certifies that the information submitted in this application regarding the above property is true, accurate and complete and that I (we) have full authority to request approval for the proposed use of the property and any proposed structures. I (we) understand that any permit will be issued in reliance of the above representations and will be automatically void if any are untrue or incorrect.

This permit is void if the development under this permit is not begun within one year of the date of approval or if construction is not completed within two years.

Construction may not be started until 15 days from the date of approval on this permit.

Signature of Applicant(s) Joann E. Pacasse Date 3/24/25

Signature of Landowner(s) Joann E. Pacasse Date 3/24/25

Note: Failure to develop your property in accordance with your application and any conditions of this permit may result in an enforcement action and may affect your ability to sell or transfer clear title to your property.

Appeal from a decision or act of the Zoning Administrator must be made in writing to the Development Review Board, c/o the Town Clerk's Office at the address shown above, with the appropriate fee, within 15 days of the decision or act. Failure to appeal this decision will mean that all interested persons are bound by this decision and will foreclose these persons from contesting this decision either directly or indirectly in the future. **This permit shall not take effect until the time for such appeal has passed.**

Please note that this is only a local permit and state permits may be needed for your project. Please contact the Permit Specialist at the VT Agency of Natural Resources at (802) 751-0127.

Conditional Use Criteria:

At your DRB hearing, you will be asked to present your proposal. Please be prepared to address the impact of your project based on the following criteria.

"The DRB shall make its findings on general and specific standards. Such general standards shall require that the proposed conditional use shall not result in an undue adverse effect on the following:

1. The capacity of existing or planned community facilities; (e.g. schools, police and fire service, etc.);
2. The character of the area affected, as defined by the purpose or purposes of the zoning district within which the project is located, and specifically stated policies and standards of the Town Plan (e.g. why your project is consistent with other uses in the area or how your project fits in with existing development);
3. Traffic on roads and highways in the vicinity;
4. Bylaws and ordinances then in effect;
5. Utilization of renewable energy resources.

Specific standards shall include:

1. Minimum lot size shall be that which is required for the district in which the use occurs unless other standards are given for conditional use lot size in the district in question.
2. Setbacks for conditional uses will be the same as for permitted uses unless other standards are given for conditional use setbacks in the district in question.
3. Exterior signs shall conform to the following in all districts:
 - (a) No internally lit signs shall be permitted;
 - (b) All signs shall be compatible in size, materials, and workmanship to the area in which they are located.
4. Location, on the lot, of structures and service areas shall be compatible with other structures in the area affected.
5. In each district, uses are given specific criteria. In all cases these criteria will be adhered to.
6. Noise, air pollution, exterior light, viewshed, and effects on the character of the neighborhood shall be considered.

Variance Criteria:

"The DRB may grant a variance and render a decision in favor of the appellant only if all of the following facts are found, and findings are specified in its written decision.

1. There are unique physical circumstances or conditions, including irregularity, narrowness, or shallowness of lot size or shape, or exceptional topographical or other physical conditions peculiar to the particular property, and that unnecessary hardship is due to these conditions and not to the circumstances or conditions generally created by the provisions of these regulations in the neighborhood or district in which the property is located;
2. Because of these physical circumstances or condition, there is no possibility that the property can be developed in strict conformity with the provisions of these regulations and that the authorization of a variance is necessary to enable the reasonable use of the property;
3. The unnecessary hardship has not been created by the appellant;
4. The variance, if authorized, will not:
 - a) Alter the essential character of the neighborhood or district in which the property is located;
 - b) Substantially or permanently impair the appropriate use or development of adjacent property;
 - c) Reduce access to renewable energy resources;
 - d) Be detrimental to the public welfare.
5. The variance, if authorized, will represent the minimum that will afford relief and will represent the least deviation possible from these regulations and from the plan." (Pages 37 & 38 of the Greensboro Zoning By-Law).

At your DRB hearing, you will be asked to present your proposal. Please be prepared to explain why your project should be granted a variance.
